Art Unit: 2653

1) Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

2) The preliminary amendment filed 12/21/2001 is acknowledged.

3) The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed. The following title is suggested.

MAGNETO-OPTICAL RECORDING MEDIUM HAVING A PLURAL REGIONS OF DIFFERENT MAGNETIZED DIRECTION.

4) Claims 1-39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is unclear and cannot be understood. The claim recites " an information recording medium comprising a substrate disposed thereon a *magnetic recording layer* ", not a disk.

Therefore, the phrase " wherein the magnetic recording layer is in advance magnetized concentrically or spirally around a center of a disk " is unclear and cannot be understood.

The same rejection is repeated for the phrase " the magnetic recording layer being in advance magnetized concentrically or spirally around a center of a disk " (claim 7, lines 5-7; claim 11, lines 5-7; claim 12, lines 5-7 and claim 39, lines 4-6).

Art Unit: 2653

Claim(s) 2-6,8-10,13-38 incorporate the indefiniteness of claim(s) 1,7,12 and 13 by virtue of their dependency thereon.

5) Claims 1-39 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

6) The prior art made of record and not relied upon is considered pertinent to applicant's disclosure (See form PTO-892 attached herein).

Applicant is reminded that in amending in response to a rejection of claims (if the rejection involves with any applicable arts), the patentable novelty must be clearly shown in view of the state of the art disclosed by the references cited and the objection made. Applicant must also show how the amendments avoid such references and objections. See 37 CFR §1.111(c).
